● About Bellevue Medical Center

Bellevue Medical Center is a 150 beds university hospital, accredited by the prestigious Joint Commission International (JCI), affiliated to Saint-Joseph university's faculty of medicine (USJ), and located in the Qanater Zbaydeh region, a splendid and serene valley between the regions of Mansourieh and Hazmieh, 15 minutes away from downtown Beirut.

It is a unique hospital in the region where patients can feel at home surrounded by a natural, quiet environment, conducive to a positive healing process especially in cases of long stays.

Privacy and confidentiality of our patients are of major importance to us. Therefore, the overall infrastructure has been set up in a manner that facilitates patients' admission and process and maintains their privacy and safety throughout their stay.

● Values and Patients Care

At Bellevue Medical Center, we are determined to improve the quality of life in the communities we serve. Our patients are a center-point for all our activities because we want to provide them with the medical care they deserve.

We are committed to treating our patients with courtesy and respect. We value compassion, trust, honesty, integrity, efficiency, leadership and excellence in all our interactions, whether among staff members or with our patients.

● Qualified Staff for You

Bellevue Medical Center's growth is based on careful selection of its human and technical resources. We strive to hire the best physicians, nurses, allied healthcare professionals in order to achieve our organization's professional and ethical goals.

We highly encourage team work within and across the different departments to ensure the best patient care. In addition, the hospital adopts a healing culture among staff and physicians.
